## Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic

No one remedy is louder called for by the necessities of the American people than a sure and safe cire to: I the armonical to offer, with a period certainty that it will enait att the disease, and with nesure proport that no harmonical to a proper that no harmonical to the containty that it will enait at the disease, and with nesure property that no harmonical safe.

certainty that it will enducate the disease, and with assur ance, tounded on proof, that no harm can arise in its use on any quantity.

That which protects from or provents this disc der must be of immense service in the communities where it prevails. Prevention is better than care, for the patient escapes the risk which he must um in violent attacks of this baleful distanger. This "CURE" expels the miasmatte poson of Fever AND AGUE from the system, and prevents the development of the disease, it taken on the first approach of its premonitory symptoms. It is not only the best remody ever violascovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody, and in bilious districts, where ITVER AND AGUE prevails, everybody should have it, and use it feely, both for cure and proceeding. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quimmo or mineral; consequently it produces no gamman or other injurious effects whates or upon the constitution. Those cured by it are left at soailty as it they had nover had the disease.

Tever and Ague is not alone the consequence of the miasmante poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rhematism, Gout, Headache, Bindhess, Toothache, Earnehe, Catarrh, Asthm., Palpitation, Paintul Affection of the Spleen, Headmann, Grantitation in the Bowels, Colle, Panalysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Citar" expels the poison from the blood, and onsequently cures them all alike. It is an invaluable protection to minigrants and persons to welling or temporarily residing in the malations listricts. If taken occasionally or daily while exposed to the infection, that will be excreted f

A CATAMOUNT DRIVES A FAMILY FROM HOME.

The Sioux City Journal relates this story: "Settlers living on the frontier are subject to Indian raids and other dangers, but we never before heard of one wildcat raiding a house and cleaning it out. Such, however, was the case about ten days ago. A large wildcat entered a German's house near Granger's Woods, about forty miles up the Missouri River from this city. The inmates of the cabin comprised six permates of the cabin comprised six persons, the mother and five children.

The father was a mile distant chopping wood in the timber.

Upon the appearance of the animal at the door, which was created as the door, which was created as the mother and little was created as the mother and the mother and the mother and five locations are considered. was standing ajar, the mother and little ones fled the house by another door, and ran to where the man was at work, while a small dog and a domestic pussy gave the intruder battle. Upon the return of the German and his family, the beast had taken refuge in a tree a few rods from the house. The old rifle was taken from the corner, and the cat was brought to the ground with a bullet through its brain. The dog and the pussy were both found dead inside of the house. The cat was of a very large size, and had been frequently seen in

AVERAGE FEED OF COWS.

At a meeting of milk producers in Mass., some time since, a Mr. Wetherell stated that cows upon an average need footy-five pounds of hay per day, or its equivalent, whilst giving milk. That large cows produce more milk for the amount of feed given than small ones. That scrub cows will give annually 1,400 quarts of milk, whilst the Holstein and some other breeds will produce 4,000. All cows should be kept clean as well as their surroundings

Some curiosity has been excited by

### "FERNANDY WOOD."

From the Inter-Ocean. We believe -- in fact we are very confident-that Fernando Wood will be the next Speaker of the House of Representatives. Our reasons for this be lief are various. In the first place, Fernando is lying back, coolly and carefully watching the progress of events, in a indicious, conservative sort of way, while Samrandall and Samcoxare making themselves very conspicuous whenwer there is opportunity for any little ilibustering to be done. Scarce a day passes in the House in which one or the other of this brace of aspirants fails seasons. The offense, in Mr. Brown's to figure in demanding the yeas and nays

selves in a constant effervescence. All this time the sage and reticent Fernando keeps his own counsel, and does nothing—unless to inwardly "cuss" those fellows for constantly placing the party in a false position. He seems perfectly contented that the fierce and mpetuous Samuels shall lash themselves nto a ferment and crack their little while about the Democratic minority as much as they please, for he is playing his game in an adroiter manner. For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or minoral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required, Long experiences has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Intenal organs which become clogged and sluggish are cleansed by Aper's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unampdred for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without distart ance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Fills rapidly cure:

For Byspepsis or Endignation, Listlessness, Languer and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restors its healthy tone and action.

For Liver Complaint and its various symptoms, Billious Headsche, Sick Headsache, Junual ice or Green Sickness, Bilious Colic at Billious Pevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Mysemtery or Diarrhams, but one mild doss is generally required

mild dose is generally required.

For Etheumatism, Cout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Looms, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints distippear.

For Bropay and Brousical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derragement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and 1 movating effect on the digestive apparatus.
